## i@Consulting

i@Consulting is a leading specialist in providing infrastructure asset management (IAM) solutions. The company has prepared national IAM guidelines for local government and has been recognised for its inputs to international documents, including the IIMM and ISO 55000 for asset management.

i@Consulting has assisted dozens of organisations in South Africa over the past nine years to develop a sound framework for the management of their infrastructure and property assets – including metros and other local government clients, where challenges are often acute and complex. The company addresses the need for improved management practices at the strategic, tactical and operational levels of an organisation, across all technical sectors, embracing corporate risk, and financial and performance management. Scalable models are established, providing the opportunity for progressive practice improvement and competency over time. i@Consulting has been responsible for training hundreds of municipal officials in IAM, as well as many others through material availed for use by IMESA.

Appropriate solutions are crafted through the combined expertise of the company's engineers, management consultants, asset management specialists, trainers, accountants, financial planners, urban planners and economists, data analysts, systems experts and GIS specialists – all are available under one roof.

## Hatch Goba

Hatch Goba (a member of the Hatch Group of Companies) is an employee-owned, multidisciplinary professional services firm. We deliver a comprehensive array of technical and strategic services to the mining and metals, energy, and infrastructure sectors. Our services include management consulting, engineering, process development, operational performance, environmental services, technologies, and project and construction management.

Our group has served clients for over 80 years and has project experience in more than 150 countries around the world. With 11 000 employees globally, in over 65 offices on six continents, we have more than \$35 billion in capital projects under management.

Locally, Hatch Goba employs approximately 1 200 personnel in South Africa and operates from four regions, with six principal offices in Gauteng, KwaZulu-Natal, Eastern Cape and Western Cape. These offices are supplemented by regional satellite and project-based offices in various centres throughout Africa. Our focus is to provide a more integrated service to our three business sectors while ensuring that world-class project management practices are combined with a deep level of understanding of the local environment to produce excellence for both public and private sector clients
