

Paper #	Page	Speaker(s)	Paper Title
Paper 1	55	Allyson Lawless	Numbers and needs in local government – Update 2015
Paper 2	62	Grant Mackintosh	Kingfisher: A South African/Dutch initiative improving IWRM through strengthening municipal water and sanitation services
Paper 3	68	Stephan Jooste	Solving our municipal service delivery crisis through PPPs - Not-so-new solutions to old problems
Paper 4	72	Darren Keep	Moving on: Sustainable growth via increased rural connectivity
Paper 5	77	Lucas-Jan Ebels	BRT and public transport networks – Pavement design considerations for bus lanes
Paper 6	84	Alaster Goyns	South Africa's future service needs: Developments in trenchless technology can meet the challenges
Paper 7	92	Daniel Petrie	Energy-efficient plant design: Cost-benefit analyses of treatment process options at different Western Cape Wastewater Treatment Works
Paper 8	102	Carl October	A decision support process for the upgrade of gravel roads in the Western Cape Province
Paper 9	110	Chantal Rudman	Opportunities in the City of Cape Town to support a secondary materials economy in builders' rubble through uptake in road rehabilitation and construction
Paper 10	114	Geoff Tooley	Debris walls – Learnings and successes of eThekweni Municipality
Paper 11	122	Yeshveer Balam	The collection of network level road condition data using an integrated traffic speed deflectometer – A paradigm shift in road asset management practice
Paper 12	129	Nick Alcock	Treating UD faecal waste using black soldier fly (BSF): A municipal, researcher and contractor partnership
Paper 13	135	Trevor Bowman	A first order guideline to assess the feasibility of gravitating sewage via a tunnel vs sewer rising mains
Paper 14	139	Roy van Ballegooyen	Environmental authorisation of land-based effluent discharges into the coastal environment: Synchronising engineering design, environmental impact assessment & regulatory approval processes to minimise the risk of project delays
Paper 15	147	Ronnie McKenzie	The dangers of intermittent supply as a measure to save water in South Africa
Paper 16	152	Ross Mahaffey	Challenges and the future of the implementation of bulk water pipeline condition assessment
Paper 17	158	David Drummond, Presantha Maduray, Nkosinathi Buthelezi, Jessica Dunstan, Zabathwa Mzamane	Land of the rising young engineers
